Special Bulletin 5 ARLX005
From ARRL Headquarters
Newington CT June 21, 2024
To all radio amateurs

SB SPCL ARL ARLX005
ARLX005 2024 W1AW Field Day Bulletin

Every year on the 4th full weekend of June, thousands of amateurs from across the United States, Canada, and the world get on the air for ARRL Field Day. With the enhanced propagation we have been experiencing during Solar Cycle 25, Field Day 2024 promises to be one of the most popular operating events of the year.

Whether you're a Field Day veteran or it's your first year participating, there's fun to be had for everyone regardless of their operating experience. Groups can earn bonus points by hosting a Get on the Air (GOTA) station. The GOTA station is a great opportunity for your group to invite both newly licensed and youth operators to operate and join in on the fun.

Be sure to share your stories and photos by using our Field Day Soapbox and social media platforms such as Facebook, Instagram, and X (formerly Twitter.) Some groups even live stream their events to gain even more visibility. We're looking forward to seeing how you publicize and promote your group's participation in Field Day.

After the last antenna is taken down, all the cables are coiled up, and the gear packed away, don't forget to submit your Field Day entry using the online form at, field-day.arrl.org before 2059 UTC on Tuesday, July 23, 2024. This year is the perfect opportunity to BE RADIO ACTIVE.

Good luck, and 73.
